**REMARKS**

In an Office Action dated November 8, 2005 issued in co-pending patent application USSN 10/817,492, the Examiner pointed out that at page 1 of the specification, the patent number 4,799,376 appears to be incorrect. Upon review, applicants discovered that U.S. 4,799,346 should have been listed. The same error was discovered in the subject patent applications. Applicants submit that the person of ordinary skill in the art, like the Examiner, would have recognized the error and could have easily found the correct patent number. Consequently, applicants hereby amend the subject patent application to correct this error. Entry and consideration are respectfully requested.

Applicants found a similar error in the Form SB08A submitted with the original Information Disclosure Statement and enclose a corrected form.
